

Roles & Pathways: The Stroke Network in Haringey

(An integrated Approach)

*Tristan Brice
Stroke Care Co-ordinator
NHS Haringey / Haringey Council*

Overview

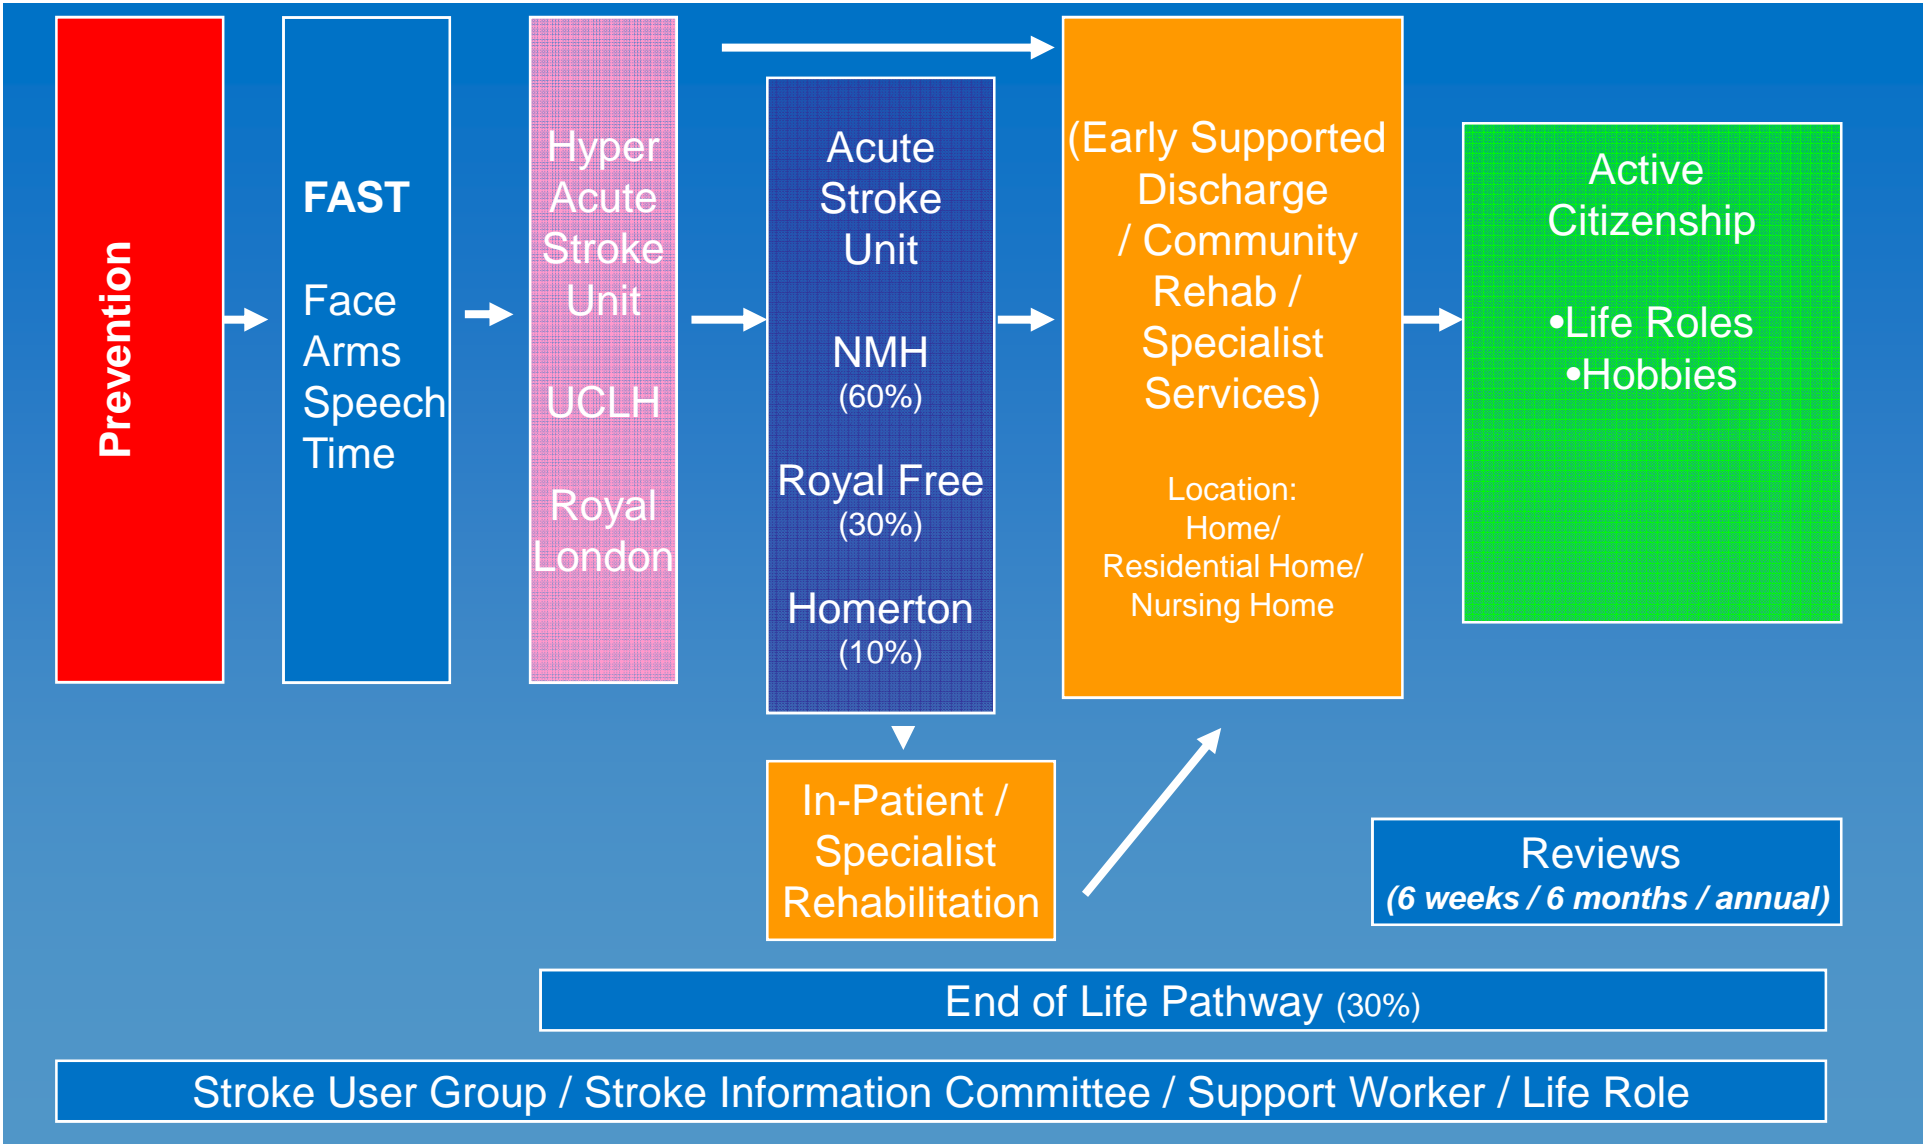

- Briefly outline the integrated patient pathway for stroke in Haringey
- Discuss how re-integration back into the community is facilitated within Haringey
- Discuss the challenges of integrating different providers within the pathway

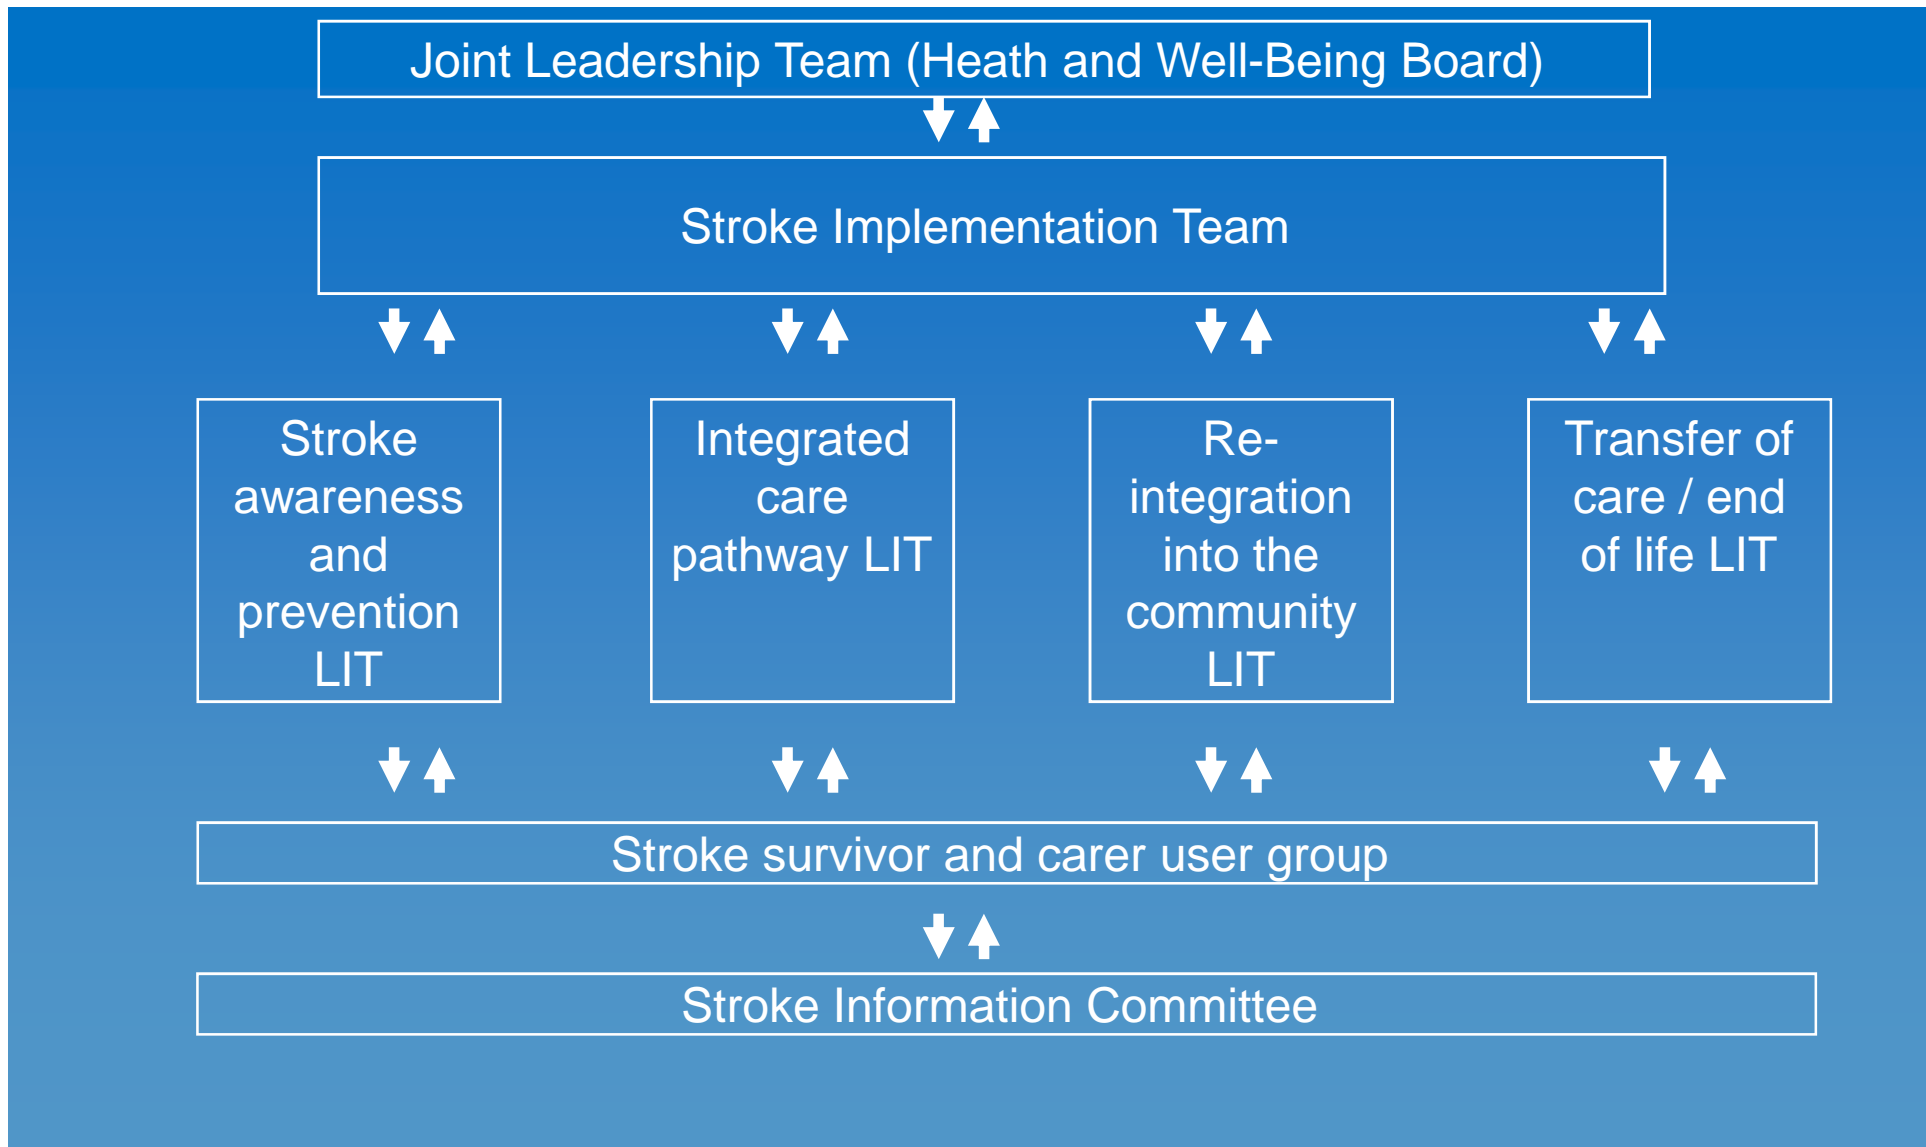

STROKE PATHWAY HARINGEY

(April 2011)

GOVERNANCE ARRANGEMENTS

Re-integration back into the Community

Social Exclusion

- “Social exclusion is about more than income poverty. It is a short-hand term for what can happen when people or areas face a combination of linked problems, such as unemployment, discrimination, poor skills, low incomes, poor housing, high crime and family breakdown. These problems are linked and mutually reinforcing” (SEU, 2004).

Services: Active Citizenship
